

## Children and Young People's Mental Health and Wellbeing Profile Indicator Quality Flags

Identification of need		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
1	Estimated prevalence of mental health disorders in children and young people: % population (aged 5-16)	Y		Y	2	There are some concerns regarding the quality of this indicator	Unvalidated calculation methodology. Underlying prevalence data old and sourced from survey.	March 2017
2	Estimated prevalence of emotional disorders in children and young people: % population (aged 5-16)	Y		Y	2	There are some concerns regarding the quality of this indicator	Unvalidated calculation methodology. Underlying prevalence data old and sourced from survey.	March 2017
3	Estimated prevalence of conduct disorders in children and young people: % population (aged 5-16)	Y		Y	2	There are some concerns regarding the quality of this indicator	Unvalidated calculation methodology. Underlying prevalence data old and sourced from survey.	March 2017
4	Estimated prevalence of hyperkinetic disorders in children and young people: % population (aged 5-16)	Y		Y	2	There are some concerns regarding the quality of this indicator	Unvalidated calculation methodology. Underlying prevalence data old and sourced from survey.	March 2017
5	Prevalence of ADHD among young people: Estimated number aged 16 - 24 year olds	Y			1	There are significant concerns regarding the quality of this indicator	Estimates only based on number of children and take no local factors into account. Reported as numbers as all areas have the same rate.	March 2017
6	Prevalence of potential eating disorders among young people: Estimated number aged 16 - 24 year olds	Y			1	There are significant concerns regarding the quality of this indicator	Estimates only based on number of children and take no local factors into account. Reported as numbers as all areas have the same rate.	March 2017
7	Looked after children where there is cause for concern: % of looked after children	Y			3	The quality of this indicator is robust		March 2017
8	Hospital admissions as a result of self-harm: DSR per 100 000 population aged 10-24	Y		Y	2	There are some concerns regarding the quality of this indicator	Potential inconsistency in coding and practice between Trusts.	March 2017
9	Hospital admissions as a result of self harm: Crude rates per 100000 aged 10-14	Y			2	There are some concerns regarding the quality of this indicator	Potential inconsistency in coding and practice between Trusts.	March 2017

Identification of need		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
10	Hospital admissions as a result of self harm: crude rates per 100000 aged 15-19	Y			2	There are some concerns regarding the quality of this indicator	Potential inconsistency in coding and practice between Trusts.	March 2017
11	Hospital admissions as a result of self harm: crude rates per 100000 aged 20-24	Y			2	There are some concerns regarding the quality of this indicator	Potential inconsistency in coding and practice between Trusts.	March 2017
12	Pupils with social, emotional and mental health needs: % of primary school pupils	Y			3	The quality of this indicator is robust		March 2017
13	Pupils with social, emotional and mental health needs: % of secondary school pupils	Y			3	The quality of this indicator is robust		March 2017
14	Pupils with social, emotional and mental health needs: % of school pupils	Y			3	The quality of this indicator is robust		March 2017
Protective factors		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
1	School Readiness: % of all eligible children	Y			3	The quality of this indicator is robust		March 2017
2	School Readiness: % of all eligible children with free school meal status	Y			3	The quality of this indicator is robust		March 2017
3	Emotional wellbeing of looked after children aged 5-16: average difficulties score	Y			3	The quality of this indicator is robust		March 2017
4	Mental Wellbeing in 15 year olds: Mean wellbeing (WEMWBS-14) score	Y			2	There are some concerns regarding the quality of this indicator	Underlying data from survey	March 2017
5	Positive satisfaction with life among 15 year olds: % reporting positive life satisfaction	Y			2	There are some concerns regarding the quality of this indicator	Survey data not weighted by population	June 2017

Protective factors		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
6	Educational attainment (5 or more GCSEs): % of all children	Y			3	The quality of this indicator is robust		March 2017
7	Educational attainment (5 or more GCSEs) of children in care: % of children in care	Y			3	The quality of this indicator is robust		March 2017
Primary prevention: Adversity		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
1	Children under 16 in poverty: % of children aged under 16	Y	Y		3	The quality of this indicator is robust		March 2017
2	Children under 20 in poverty: % of all dependent children aged under 20	Y	Y		3	The quality of this indicator is robust		March 2017
3	Uptake of free school meals: % of all schoolchildren	Y			3	The quality of this indicator is robust		March 2017
4	Repeat child protection cases: % of children subject to a child protection plan	Y			3	The quality of this indicator is robust		March 2017
5	Children subject to a child protection plan with initial category of abuse: rate per 10 000 children aged under 18	Y			3	The quality of this indicator is robust		March 2017
6	Children subject to a child protection plan with initial category of neglect: rate per 10 000 children aged under 18	Y			3	The quality of this indicator is robust		March 2017

Primary prevention: Adversity		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
7	Children who started to be looked after due to abuse or neglect: rate per 10 000 children aged under 18	Y			3	The quality of this indicator is robust		March 2017
8	Children in need due to abuse or neglect: rate per 10 000 children aged under 18 years	Y			3	The quality of this indicator is robust		March 2017
9	Children who started to be looked after due to family stress or dysfunction or absent parenting: rate per 10 000 children aged under 18	Y			3	The quality of this indicator is robust		March 2017
10	Children in need due to family stress or dysfunction or absent parenting: rate per 10 000 children aged under 18	Y			3	The quality of this indicator is robust		March 2017
11	Families out of work : % of households with dependent children	Y	Y		3	The quality of this indicator is robust		March 2017
12	Family homelessness: rate per 1,000 households	Y			3	The quality of this indicator is robust		March 2017
13	Children in need due to parent disability or illness: rate per 10 000 children under 18	Y			3	The quality of this indicator is robust		March 2017
14	Parents in alcohol treatment: rate per 100,000 children aged 0 - 15	Y			3	The quality of this indicator is robust		March 2017
15	Parents in drug treatment: rate per 100,000 children aged 0 - 15	Y			3	The quality of this indicator is robust		March 2017
16	Unaccompanied Asylum Seeking Children looked after: count	Y			2	Some concerns regarding the quality of this indicator	Likely incomplete count of asylum seeking population. Small numbers.	March 2017

Primary prevention: Vulnerability		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
1	Looked after children: rate per 10 000 children aged under 18	Y			3	The quality of this indicator is robust		March 2017
2	Children leaving care: rate per 10 000 children aged under 18	Y			3	The quality of this indicator is robust		March 2017
3	15 year olds with 3 or more risky behaviours: % of 15 year olds	Y			2	There are some concerns regarding the quality of this indicator	Underlying data from self report survey	March 2017
4	Children in need due to socially unacceptable behaviour: rate per 10 000 aged under 18	Y			3	The quality of this indicator is robust		March 2017
5	Fixed period exclusion due to persistent disruptive behaviour: rate per 100 school aged pupils	Y			3	The quality of this indicator is robust		March 2017
6	Primary school fixed period exclusions: rate per 100 pupils	Y			3	The quality of this indicator is robust		March 2017
7	Secondary school fixed period exclusions: rate per 100 pupils	Y			3	The quality of this indicator is robust		March 2017
8	School absence: % of half days missed	Y			3	The quality of this indicator is robust		March 2017
9	15 year olds with a long-term illness, disability or medical condition diagnosed by a doctor: % of 15 year olds	Y			2	There are some concerns regarding the quality of this indicator	Underlying data from self report survey	March 2017

Primary prevention: Vulnerability		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
10	Children in need due to child disability or illness: rate per 10 000 children aged under 18 years	Y			3	The quality of this indicator is robust		March 2017
11	Pupils with Learning Disability: % of school aged pupils	Y			3	The quality of this indicator is robust		March 2017
12	Pupils with special educational needs (SEN): % of primary school age pupils	Y			3	The quality of this indicator is robust		March 2017
13	Pupils with special educational needs (SEN): % of secondary school age pupils	Y			3	The quality of this indicator is robust		March 2017
14	Pupils with special educational needs (SEN): % of school age pupils	Y			3	The quality of this indicator is robust		
15	15 year olds who were bullied in the past couple of months: % of 15 year olds	Y			2	There are some concerns regarding the quality of this indicator	Underlying data from self report survey	March 2017
16	15 year olds who are regular drinkers: % of 15 year olds	Y			3	The quality of this indicator is robust		June 2017
17	15 year olds who are current smokers: % of 15 year olds	Y			3	The quality of this indicator is robust		June 2017
18	15 year olds who have taken drugs (excluding cannabis) in the last month: % of 15 year olds	Y			3	The quality of this indicator is robust		June 2017
19	First time entrants to the youth justice system: rate per 100 000 children aged 10-17	Y			3	The quality of this indicator is robust		March 2017

Primary prevention: Vulnerability		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
20	Not in education employment or training: % of 16 - 18 year olds	Y			3	The quality of this indicator is robust		March 2017
Finance		County & LA	District & UA	CCG	Data quality score	Data quality comment	Main concerns	Date of assessment
1	Spend (£000s) on Local Authority children and young people's services (excluding education): rate (£) per 10,000 aged 0-17	Y			3	The quality of this indicator is robust		March 2017
