Perinatal Mental Health Profiling Tool -Indicator List

Demographics	Acute Trusts	ອວວ	County / UA
Aged <20 at antenatal booking: % of women	Υ		
Aged 40+ at antenatal booking: % of women	Y		
BAME groups at antenatal booking: % of women	Y		
General fertility rate: birth rate per 1,000 females aged 15-44 years		Y	Y
Women of childbearing age (15-44): % of total population		Y	Y
Births to non-UK parents: % of live births		Υ	Y
Births to mothers aged <20: % of live births		Υ	Υ
Births to mothers aged 40+: % of live births		Υ	Y
Risk & related factors	Acute Trusts	900	County / UA
Complex social factors: % of pregnant women	Y		
Multiparity (3+ previous births): % of pregnant women	Y		
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers	Y Y		
Multiparity (3+ previous births): % of pregnant women	Y Y Y		
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries	Y Y		
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only	Y Y Y	Y	 Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births	Y Y Y	Y	Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births	Y Y Y	-	Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17	Y Y Y	Y Y	Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI)	Y Y Y	Y Y Y	Y Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI) Depression: % recorded prevalence	Y Y Y	Y Y Y Y	Y Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI) Depression: % recorded prevalence Severe mental illness: % recorded prevalence	Y Y Y	Y Y Y	Y Y Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI) Depression: % recorded prevalence Severe mental illness: % recorded prevalence Looked after children aged <5: rate per 10,000 population <5	Y Y Y	Y Y Y Y	Y Y Y Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI) Depression: % recorded prevalence Severe mental illness: % recorded prevalence Looked after children aged <5: rate per 10,000 population <5 Parents in drug treatment: rate per 100,000 children aged 0-15	Y Y Y	Y Y Y Y	Y Y Y Y Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI) Depression: % recorded prevalence Severe mental illness: % recorded prevalence Looked after children aged <5: rate per 10,000 population <5 Parents in drug treatment: rate per 100,000 children aged 0-15 Parents in alcohol treatment: rate per 100,000 children aged 0-15	Y Y Y	Y Y Y Y	Y Y Y Y Y Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI) Depression: % recorded prevalence Severe mental illness: % recorded prevalence Looked after children aged <5: rate per 10,000 population <5 Parents in drug treatment: rate per 100,000 children aged 0-15 Lone parent households: % of households	Y Y Y	Y Y Y Y	Y Y Y Y Y Y Y Y Y
Multiparity (3+ previous births): % of pregnant women Skin to skin contact after birth: % of mothers Unplanned caesarean sections: % of deliveries Preterm births: % of deliveries Sole registered births: % births registered by one parent only Stillbirths: rate per 1,000 births Infant mortality: rate per 1,000 births Under 18s conception rate: rate per 1,000 females aged 15-17 Child poverty: % of children aged 0-15 (IDACI) Depression: % recorded prevalence Severe mental illness: % recorded prevalence Looked after children aged <5: rate per 10,000 population <5 Parents in drug treatment: rate per 100,000 children aged 0-15 Parents in alcohol treatment: rate per 100,000 children aged 0-15	Y Y Y	Y Y Y Y	Y Y Y Y Y Y Y Y

Prevalence	Acute Trusts	OCG	County / UA
Postpartum psychosis: estimated number of women		Υ	Υ
Chronic SMI in perinatal period: estimated number of women		Υ	Υ
Severe depressive illness in perinatal period: estimated number of			
women		Y	Y
Mild-moderate depressive illness and anxiety in perinatal period (lower		V	v
estimate): estimated number of women		Y	Y
Mild-moderate depressive illness and anxiety in perinatal period (upper estimate): estimated number of women		Y	Y
PTSD in perinatal period: estimated number of women		Y	Y
Adjustment disorders and distress in perinatal period (lower estimate):		T	Ť
estimated number of women		Y	Y
Adjustment disorders and distress in perinatal period (upper estimate):			
estimated number of women		Y	Y
Identification & Access	Acute Trusts	ອວວ	County / UA
Early antenatal booking: % of women	Υ		
Mental health detection at antenatal booking: % valid completion	Υ		
Support status recorded at antenatal booking % valid completion	Y		
Substance use recorded at antenatal booking: % valid completion	Y		
Alcohol consumption recorded at antenatal booking: % valid completion	Y Y		
Alcohol consumption recorded at antenatal booking: % valid completion Complex social factors recorded at antenatal booking: % valid completion	-		
Alcohol consumption recorded at antenatal booking: % valid completion Complex social factors recorded at antenatal booking: % valid completion Antenatal MH detection: Survey score 1=Worse than expected, 2=Same, 3=Better	Y		
Alcohol consumption recorded at antenatal booking: % valid completion Complex social factors recorded at antenatal booking: % valid completion Antenatal MH detection: Survey score 1=Worse than expected, 2=Same, 3=Better Postnatal MH detection: Survey score 1=Worse than expected, 2=Same, 3=Better	Y Y		
Alcohol consumption recorded at antenatal booking: % valid completion Complex social factors recorded at antenatal booking: % valid completion Antenatal MH detection: Survey score 1=Worse than expected, 2=Same, 3=Better Postnatal MH detection: Survey score 1=Worse than expected, 2=Same, 3=Better Information on emotional change after birth: Survey score 1=Worse than expected, 2=Same, 3=Better	Y Y Y		
Alcohol consumption recorded at antenatal booking: % valid completion Complex social factors recorded at antenatal booking: % valid completion Antenatal MH detection: Survey score 1=Worse than expected, 2=Same, 3=Better Postnatal MH detection: Survey score 1=Worse than expected, 2=Same, 3=Better Information on emotional change after birth: Survey score 1=Worse	Y Y Y Y
