

Data for the updated indicators listed below have been added to the [Productive Healthy Ageing Profile](#) data tool as part of the March 2021 update. These are provided by local authority (LA) and/or by clinical commissioning group (CCG) as indicated and at aggregated levels based on these. Note that there are some anomalies regarding which year versions of geographies are available. Further details regarding the geographies and inequality breakdowns that can be selected in the Profile are provided [here](#).

Topic & Indicator name	LA	CCG	Time period added	Further comments
Topic: Reverse or Live Well with a Long-term Condition				
Emergency hospital admissions for COPD (chronic obstructive pulmonary disease)	✓		2019/20	Available for both lower and upper local authority tiers
Dementia: Direct standardised rate of emergency admissions (aged 65 years and over) - CCG responsibility		✓	2019/20
