

## Palliative and end of life care resources

This section provides links to key resources on end of life care. These resources have been selected to assist stakeholders in their interpretation of the data presented in the Atlas of variation for palliative and end of life care. This compendium of resources can be used by service providers, commissioners and policy makers in facilitating, scoping and implementing their local responses to the findings presented in this Atlas. The resources have been organised in 5 thematically domains:

1. General
2. Commissioning and contracting
3. Condition specific
4. Data and intelligence
5. Learning and training
